

Healthcare Bluebook™

# FIND THE BEST QUALITY. FIND THE BEST PRICE.

You could be paying 500% too much for healthcare. You also may be using hospitals that are rated low in quality. But how can you know? **We're here to change that.**

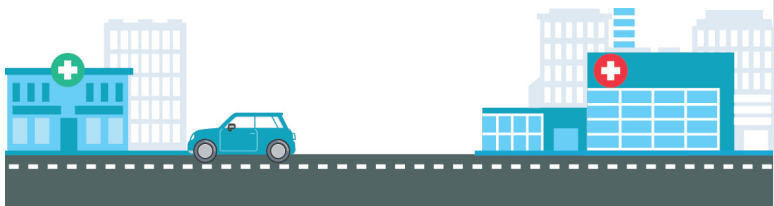

**Healthcare Bluebook** is an online and mobile tool that quickly helps you find cost and quality information by ranking local providers in an easy-to-read color system. We make shopping for healthcare services simple and straightforward.

## TRANSPARENT COSTS

### Knee MRI

Fair Price **\$593**

\$435 \$4,780+

## TRANSPARENT QUALITY

### What is healthcare transparency?

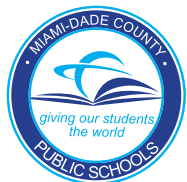

Providing you, the consumer, with upfront cost and quality information you can trust.

### How can I see this information?

Miami Dade County Public Schools has made Bluebook available to you as part of your benefits plan. Access price and quality information for free at: [healthcarebluebook.com/cc/mdcps/rewards](http://healthcarebluebook.com/cc/mdcps/rewards)

**User Name:** Last name

**Password:** Last 4 SSN

### Why do I need this?

Healthcare prices and quality vary a lot by location and by procedure.

Bluebook shows you the Fair Price™ of thousands of medical services as well as local providers that charge a Fair Price.

We also rank hospitals nationally on separate clinical categories so you can choose a facility that's best for your medical needs.

Download our mobile app on the App Store and Google Play to access custom content.

**Company Code:** MDCPS1

**When everything is transparent, the choice is clear.**

### Getting Started

Use the drop-down menus, or enter a search term in the search bar.

Choose the procedure or test that your physician recommended.

Once you've found your procedure, make sure you confirm or change your zip code for the most accurate information.

### Shopping for Healthcare

Some procedures can be shopped by price as there is little difference in quality and you probably won't interact with a physician. Like an MRI, or a CT scan.

With more complex procedures it's best to take quality into account when making your decision, like a shoulder arthroscopy or a spinal fusion.

We'll show you which procedures are ranked by price and which are ranked by quality on this screen.

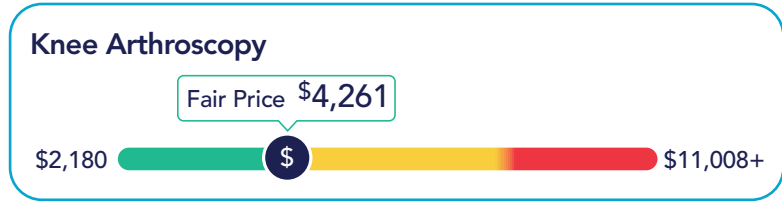

## Shop for healthcare two ways – Cost & Quality

### 1 SHOP BY PRICE RATING

You've found the procedure or test you need – now what? **Bluebook** shows you the Fair Price, as well as the price range in your area. Prices can vary by up to 500% so we've color coded providers in your area making it easy to pick one that charges a Fair Price.

No providers listed? While **Bluebook** covers 90% of the US population, if we haven't identified a provider in your area, we can still help you. Contact our PriceFinder support at [pricefinder@healthcarebluebook](mailto:pricefinder@healthcarebluebook) or 1-888-316-5217.

### 2 SHOP BY QUALITY RATING

Procedures that have measurable quality differences rank hospitals nationwide in separate clinical categories. This makes finding a high-quality hospital for your procedure easy.

Remember, many physicians can perform procedures at multiple hospitals. Keep the physician you trust, but have them perform the procedure in a highly ranked hospital.

**Same Procedure. Same Network. Different Price.**
